

Transforming the culture of health care through the Arts

About Hush

Hush transforms the culture of health care by harnessing the power of the Arts to educate, inspire and improve experiences for patients, families and health professionals.

Hush Foundation was established in 2000 by highly awarded and renowned physician, Dr Catherine Crock AM in response to her work with children undergoing painful medical procedures at The Royal Children's Hospital Melbourne, Australia.

Since then, Hush has produced three theatrical plays about health care, 18 Hush Music albums, a children's Treasure Book, numerous concerts and two Gathering of Kindness events, all aimed at improving the healthcare environment for every Australian.

Hush Music

The Hush music collection includes 16 albums of original, uplifting and beautiful music. Two more albums will be released in 2018.

Carefully created from some of Australia's foremost musicians and composers, Hush music is played in hospitals, homes and shared spaces across the globe and transforms health settings for a better experience for staff, patients and their families.
